

## **CITY OF HAYWARD**

### **AGENDA REPORT**

AGENDA DATE 07/25/00

AGENDA ITEM 3

WORK SESSION ITEM \_\_\_\_\_

**TO:** Mayor and City Council

**FROM:** Director of Public Works

**SUBJECT:** Slurry Seal, Pavement Repair, and Rehabilitation ~~2000/2001~~: Approval of Addendums and Award of Contracts

#### **RECOMMENDATION:**

It is recommended that the City Council approve the attached resolutions ~~that~~:

1. Approve Addendum No. 1 to the Pavement Slurry Seal project, which makes a minor change to the specifications;
2. Award the Pavement Slurry Seal ~~2000/2001~~ contract to Bond Blacktop, Inc., in the amount of \$100,496;
3. Approve Addendum No. 1 to the Pavement Rehabilitation project, which makes a minor change to the specifications;
4. Award the Pavement Rehabilitation ~~2000/2001~~ contract to RGW Construction, Inc., in the amount of \$1,492,251.50.

#### **BACKGROUND:**

On June 6, 2000, the City Council approved the plans and specifications and called for bids to be received on July 6, 2000.

These projects are a continuation of the City's ongoing program to slurry seal residential streets every six to seven years to extend the life of street pavement and to rehabilitate other more heavily traveled streets based on priorities established through the City's Pavement Management Program (PMP). All residential streets in the area shown shaded on the attached Exhibit A are either proposed for slurry seal or pavement overlay this year. Pavement at the 1000-foot reservoir and the Giuliani Plaza parking lot will also be slurry sealed.

In addition, streets outside the slurry seal area were also selected for pavement rehabilitation and are shown on Exhibit A and listed on Exhibit B. The selection of streets for rehabilitation is based on staff's analysis of the pavement condition indices identified through the City's 'computerized PMP, along with specific field examination, pavement deflection testing, and the

functional classification of each street. Pavement rehabilitation in this project consists of making deep-lift asphalt concrete spot repairs and placing an asphalt concrete overlay on various streets and at the “D” Street and Highland 750 Reservoirs, **and** Municipal Parking Lot #7.

An addendum was issued for each project revising the date for submittal of DBE information. The addendum for the Pavement Rehabilitation also added overlay on Second Street where a waterline is currently being installed. Copies of the addendums are available for review in the Office of the City Clerk.

This year, for cost effectiveness, the work was bid as two separate contracts - one for slurry seal and one for the remaining pavement repair and overlay work.

### **Slurry Seal**

On July 6, 2000, six bids were received for the slurry seal project. Bond Blacktop, Inc., of Union City submitted the low bid in the amount of **\$100,496.00**, which is 16 percent below the Engineer’s Estimate of \$120,000. American Asphalt Repair of Hayward submitted the second low bid in the amount of **\$103,069.00**, which is 14 percent below the Engineer’s Estimate and \$2,573 more than the low bid. The bids ranged from \$100,496 to **\$128,866.20**.

The Disadvantaged Business Enterprises (DBE) and Women Owned Business Enterprises (WBE) goals for this project were established at 9 percent. The low bidder, Bond Blacktop, has listed DBE and **WBE** participation of 10 percent, which meets the established goals. Therefore, staff recommends award of the contract to the low bidder, Bond Blacktop.

### **Pavement Rehabilitation**

On July 6, 2000, six bids were received for the pavement repair and overlay work. However, staff determined that two of the bids were non-responsive. RGW Construction, Inc., of Fremont submitted the low bid in the amount of **\$1,492,251.50**, which is 9.7 percent below the Engineer’s Estimate of **\$1,652,000**. -Gallagher & Burk, Inc., of Oakland submitted the second low bid in the amount of **\$1,609,615.20**, which is 2.5 percent below the Engineer’s Estimate and **\$117,363.60** more than the low bid. The bids ranged from **\$1,492,251.50** to **\$1,716,064.03**.

A combined Disadvantaged Business Enterprises (DBE) and Women Owned Business Enterprises (WBE) goal for this project was established at 8 percent. The low bidder, RGW Construction, has listed DBE and WBE participation of 8.7 percent, which meets the established goals. Therefore, staff recommends award of the contract to the low bidder, RGW Construction.

## PROJECT COSTS:

The estimated project costs are as follows:

Pavement Slurry Seal – Contract Construction	\$ 100,496
Pavement Repair/Rehabilitation - Contract Construction	1,492,252
Detector Loops Replacement	25,000
Restriping	43,000
Crack Sealing (City Forces)	45,000
Tree Trimming (City Forces)	10,000
Design and Administration	95,000
Inspection and Testing	75,000
TOTAL	<u>\$ 1,885,748</u>

## FUNDING:

A total of \$2,224,000 has been identified in the adopted 2000/2001 Capital Improvement Program for Street Repair, Pavement Rehabilitation, and Slurry Seal.

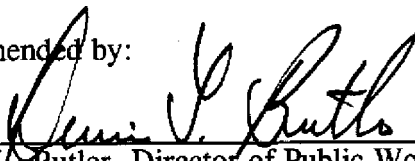

## SCHEDULE:

Pavement Rehabilitation	
Award Contract	July 25, 2000
Begin Work	August 16, 2000
Complete Work	October 20, 2000
Slurry Seal	
Award Contract	July 25, 2000
Begin Work	September 18, 2000
Complete Work	October 20, 2000

Prepared by:

  
Robert A. Bauman, Deputy Director of Public Works

Recommended by:

  
Dennis L. Butler, Director of Public Works

Approved by:

  
Jesus Armas, City Manager
